2019

Stakeholder Workgroup Agenda

I Welcome and Introduction of Workgroup Members

II Objectives of the Workgroup

- Assist APD in developing strategies to support more individuals with developmental disabilities in competitive integrated employment.
- Identify challenges and opportunities within the iBudget waiver for individuals to participate in employment and community activities.
- Propose changes to the iBudget-funded Supported Employment and Adult Day Training services to address the above objectives.

III Areas of Focus for a Redesign

- Individual Supported Employment
 - o How can we ensure each individual receives adequate ongoing support to succeed in competitive integrated employment?
 - o What mechanisms need to be in place for the service to remain cost-effective while meeting the unique needs of the individual?
- Group Supported Employment
 - o What are the expectations of this service? How do activities funded by Group Supported Employment differ from “ADT off-site” under the iBudget waiver?
 - o Why is there a low number of participants (e.g., 41 in FY17-18)?

REDESIGN

- Adult Day Training
 - o How are individuals' interests, strengths, barriers, etc., being considered in planning meaningful day activities?
 - o What day activities are occurring out in the community (i.e., "ADT off-site")? How are these activities being delivered?
 - o How are ADT providers identifying and supporting individuals who want to pursue competitive integrated employment as a goal?
 - o What work-based experiences, such as job exploration, could ADTs provide to support an individual interested in VR services?

IV Next Steps and Adjourn

- Next Webinar: 10-11:30 a.m. EDT on Tuesday, July 23, 2019
