General Subject Matter:

The Agency for Persons with Disabilities, in conjunction with the Agency for Health Care Administration, has been directed to develop a plan to redesign the waiver program and submit the plan to the President of the Senate and the Speaker of the House of Representatives for consideration and ultimate Legislative approval. At a minimum, the plan must include the following elements:

- (a) Budget predictability – budget recommendations must include specific steps to restrict spending to budgeted amounts based on alternatives to the iBudget and four-tiered Medicaid waiver models
- (b) Services – the agency shall identify core services that are essential to provide for client health and safety and recommend elimination of coverage for other services that are not affordable based on available resources
- (c) Flexibility – the redesign shall be responsive to individual needs and to the extent possible encourage client control over allocated resources for their needs
- (d) Support coordination services – the plan shall modify the manner of providing support coordination services to improve management of service utilization and increase accountability and responsiveness to agency priorities

To that end, this meeting is intended to provide the public with an opportunity to offer the Agency comments, ideas, and suggestions on the above elements. Additional comments may be submitted by July 24 at 5 p.m. to apd.info@apdcares.org.
