In response to the requirements passed during the 2012 Legislative session, the Agency for Health Care Administration (Agency) created the Care Provider Background Screening Clearinghouse (Clearinghouse) Website for use by all specified agencies. The enhanced website allows users to initiate a screening, search for screening results, connect to specified agencies screenings, select a Livescan service provider and connect to the service provider’s website to schedule appointments. Utilizing the Clearinghouse website to initiate screening requests provides the following benefits:

- Ability to share results of criminal history checks among specified agencies.

- Ability to view subsequent arrest information for employees with retained fingerprints (only available to current employers of the individual).

- Ability to track screenings from the time the screening request is initiated in the Clearinghouse until a determination is made.

- Provides email notification to the user regarding status updates to requests initiated.

- Ability to search for Livescan Service Providers by certain criteria (county, name, etc.). Provides information and ability to connect to the fingerprint service provider’s website to make appointments.

- Provides TCR# needed for sending an applicant to be rescreened for rejected prints.

- Posts Public Record version of state criminal history record (RAP sheet) for review by the provider requesting the original screening.

- Allows user to connect to a screening request in process for notification when results are available (reduces duplicative screening).

- Creates a “status” report and a “completed screening listing” report of screenings requested by the user eliminating the need to search for each screening result individually.

- Maintain an employee roster by entering hire and separation dates for each employee. This facilitates a notification to the employer if the eligibility status of an employee changes.
  - According to section 435.12(2) (c) an employer of persons subject to screening by a specified agency must register with the clearinghouse and maintain the employment status of all employees within the clearinghouse. Initial employment status and any changes in status must be reported within 10 business days.

- Redesigned Individual Profile page that includes:
  - Eligibility Results
  - Photograph, if the individual is in the Clearinghouse
  - Department of Health Professional Licensure Status
  - View screenings in process
  - State criminal history report viewable for the provider initiating the screening
  - Employment History

If you have requested and been granted access to the Clearinghouse results website on behalf of multiple specified agencies, you will be prompted to select the agency for this session before viewing the home page. For more information about how to request access on behalf of multiple agencies, see the advanced registration guides at this link for your scenario:
http://ahca.myflorida.com/MCHQ/Central_Services/Background_Screening/BGS_results.shtml.

A welcome message and your provider information will appear on the BGS Home page. This page will also display important bulletin messages and information when appropriate.

If we become aware of a change in an individual’s eligibility status, an email notification will be sent to the most recent employer of record in the Clearinghouse or the last provider to submit a screening request through the Clearinghouse. It is recommended employers check the screening results of staff regularly as an individual’s status may change based on information received.

- The applicant or employee does NOT need to visit a Livescan location and submit new fingerprints
- The provider will receive a copy of the public rap sheet after initiating an agency review

If there has been a 90 day lapse in employment, these applicants would only require a new national criminal history check – a resubmission of the retained fingerprints. A new state criminal history search will also be conducted, at no additional charge.
